## A

Absorbers devised for system fifth harmonics ... 387
Accidents and accident prevention—Antidote found for electric shock (N) 712

**Accounting:**
- Costs for power station operation. C. D. Zimmerman ... 196
- New York Accountants urge independent audits (N) ... 408
- Speed in customer billing in Toledo Edison Co. ... 169

Advertising — Evaluating national-co-ordinated promotional programs. J. E. Davidson ... *762

**Air Conditioning:**
- Attic fans cool houses in summer ... 544
- Detroit Edison installs comfort-cooling in offices ... 264
- Discussion at E.E.I. meeting ... 753
- Documents in Washington to be preserved by air conditioning (N) ... 120
- Energy requirements for air conditioning of homes. D. W. McLenegan ... 644
- Hay fever helped by air conditioning (N) ... 600
- Humidifier, portable electric ... 80
- Portable demonstrations of air conditioning ... 458
- Unit air conditioner (N) ... *530

Aluminum bromide for binary cycle power generation (N) ... 467
American Engineering Council—Meeting (N) ... 82
American Institute of Electrical Engineers—Convention topics—insulation co-ordination and impulse testing, lightning outages reduced, industrial and transportation applications, protecting service, inverters, rectifiers and low frequency generators, dielectric, graphic and acoustic measurements, high pressures and temperatures ... *156
- Schenectady meeting (N) ... 628

American Welding Society—meeting (N) ... 569
Apparatus and supplies, production in 1931, 1929 ... 45

**Appliances:**
- Appliance insulation resistance. Gordon Thompson ... 793
- Dry goods men debate the electrical market (N) ... 118
- England completes five-year trial of rental of appliances (N) ... 81
- Free appliances add to rentals (Ed) 506
- Maryland Commission to ask itemized appliance data (N) ... 86
- More diversity in home uses than code recognizes. W. F. Walsh (tables) ... 124
- Pacific Gas & Electric gives exclusive territories to manufacturers (N) ... 339
- Red Seal values in Vancouver (N) ... 779
- Rentals in Malay States (N) ... 152
- Richmond to inspect appliances for safety. Earl Whitehorne ... 488
- Switzerland leads world in appliance saturation (N) ... 742
- The home—$21,000,000,000 market ... *34

Arcing ground suppressors—German experience. E. M. K. Sommer ... *730

**Associations:**
- Action for trade associations (Ed) 283, 714
- Collective action for profits. L. W. W. Morrow ... 380
- Co-operative marketing on a national scale. H. P. Liversidge ... 412
- Directory of electrical associations ... 48
- Regulated price agreements urged. W. A. Layman ... 640

Australia—Electricity consumption (N) ... 150
Awards—Nobel prize to Starr (N) ... 114

## B

Battery changing. Wyatt & Samuels ... *428
Battery driven locomotives ... 264
Bearings—Mining company saves with ball bearings. F. A. Westbrook ... 727

**Boilers:**
- Adapting oil burners to pulverized coal boilers. E. F. Walsh ... *522
- Electric boilers an opportunity? ... 351
- Electric boiler for dairy sterilizing. D. B. Leonard ... *109
- Electric steam boilers installed in Canadian plant (N) ... 214
- High pressure units installed in Belgium (N) ... 88
- Velox explosion type boilers developed (N) ... 441
- "Velox" explosion type boilers explained (N) ... 185

Book reviews ... 142, 207, 303, 399, 622, 655, 734, 839
Busbars and buses—Bus with laminated paper insulation ... 560
- Effect of busbar insulation on heat dissipation. R. J. Coe (charts) ... 223

**Business Conditions:**
- Business curves turn upward (Ed) ... 715
- Desire for change a basis for recovery (Ed) ... 155
- Speaking frankly (Ed) ... 218
- We shall have action (Ed) ... 314

## C

**Cables:**
- Bare neutral service cable (Ed) ... 603
- Cable vs. open wires for service drops. *521
- Corrosion reduced by external grease film (N) ... 121
- Gas-filled cable tested (N) ... 441
- Lead cable sheaths ... 254
- Network cable of new type tested (N) 406
- Oil-filled cable service without electrical failure (N) ... 50
- Progress in mitigating cable sheath electrolysis. Reeves & Avila ... *720
- Racks for control cables ... *203
- Resin-insulated cable ... 624
- Service entrance cables and service drop cables ... 592
- Short time fusing of copper cables. R. J. Coe ... 205
- Termination of control cables at switchboards. W. B. Morton ... *490

**Canada:**
- British Columbia leads in energy use (N) ... 440
- Central stations output (N) ... 310
- Energy output shows gain (N) ... 54
- Merger of manufacturers (N) ... 246
- 1932 increases hydro-electric capacity (N) ... 88
- Statistics for 1931 (N) ... 342

Canadian Electrical Assn.—convention (N) ... 812
Central stations—Monthly data ... 4, 128, 287, 416, 576, 729

**Century of Progress:**
- Electrical exhibits ... *673
- Electricity at work. E. W. Lloyd ... *680
- Electricity for the World's Fair. J. L. McConnell ... *699
- Lighting an exposition. W. d'Arcy Ryan ... *687
- Special types of standards used for outdoor lighting ... *684
- World's Fair in color ... *689

**Circuit Breakers:**
- Air operated breakers reintroduced abroad (N) ... 499
- Breaker with oil-filled bushings ... 80
- Combination circuit breaker and disconnecting switch ... 112
- Cost of installing four breakers and related transformers ... 230
- 895,000 Kva. single phase interrupted by breaker (N) ... 1
- Fuses replaced by circuit breakers ... 560
- Scheduling breaker inspection reduces maintenance costs. Allen & Speir 266
- Weatherproof circuit breakers ... 112

Clocks, electric—Telechron patent rights defined (N) ... 151
Clutches—Fitting motors and clutches to high inertia loads. R. S. Elberty (charts) ... *92

**Coal:**
- Anthracite breaker design. R. A. Hopkins ... *484
- Connected loads and demands of anthracite breaker power applications (table) ... 583
- Consumption and energy generated—statistics ... 17
- Motor and control applications in new anthracite breaker. R. A. Hopkins. *516

Code, electrical — New York contractors unite to enforce (N) ... 536
Code, National Electrical, probable changes in (N) ... 473
Commutation aided by spiral grooving. R. H. Parrish ... 383
Condensers—Synchronous condenser raises system generating capacity ... 494
Conduits—Installing conduits where excavation is objectionable ... *190
Contract, power—minimum charge clause. Leslie Childs ... 828

**Control:**
- Anthracite breaker design and its control. R. A. Hopkins ... *484, *516
- Density of solutions controlled electrically. H. M. Pillars ... *286
- Electronic tube control for forging heaters ... 144
- Guarding remote control against ground faults. Landis & McLaughlin ... *76
- Load control reduces peak demand ... 425
- Rectox unit controls two motors ... *515
- Relay controls tank current in copper works. W. C. Noddings ... 238
- Remote alarms by carrier current over distribution circuits. F. B. Doolittle ... *172
- Simple relays given precision by resonant circuits. C. G. Suits ... *140
- Simplifying terminal facilities for control board. Sargent & White ... *642
- Starter, portable electric, for plane motors (N) ... *153
- Street lighting controlled by electric eye ... 142
- Supervisory-controlled station pumps under 3,000 ft. head (N) ... 371
- Thyratron control for synchronous motor (N) ... *628
- Visual numbers control grain flow (N) ... *594

Cooking—electric—Taught by laboratory method ... *355
Corrosion—Molded coating halts oil pipe corrosion. A. J. Swank ... *134

**Costs:**
- Cost consciousness down the line (Ed) 475
- Distribution costs discussed by Institute of Public Engineering (N) ... 116
- Distribution costs should be available (Ed) ... 123
- Economy may not dedicate high efficiency (Ed) ... 819
- Electric light and power systems—unit costs based on construction ... 481
- Installing four circuit breakers and related transformers ... 230
- Richey index of electric light and power construction costs ... 105

## D

Dairy sterilizing with electric boiler. D. B. Leonard ... *109
Desalting brewery water by electro-osmosis. *725
Design for progress. J. B. MacNeill ... *444

Dielectrics—High voltage bridge measures low power factors (N) ..... *121
Distribution — Costs of distribution analyzed ..... *348
Distribution costs fixed by domestic usage. Samuel Ferguson ..... 295
Distribution costs should be available (Ed) ..... 123

**Distribution System:**
Buildings — Plymouth Motor Car plant ..... *483
Customer-service-continuity records. W. R. Hamilton ..... 63
Innovations in Port of New York Authority's terminal ..... *198
Master system plan. W. J. Lyman (James H. McGraw first prize paper) ..... *788
Outdoor type primary network unit .. *226
Primary network economical for medium load densities. Parsons & Olmsted ..... *835
Primary distribution economics. D. K. Blake (charts) ..... 508
Remote alarms by carrier current over distribution circuits. F. B. Doolittle ..... *172
Shell Chemical Co. installation for maximum economy. Carriere & Henderson ..... *392
Drives, electric, in Michigan Copper and Iron mines ..... 457

## E

**Edison Electric Institute:**
(Ed) ..... 90
Annual convention ..... 748
Formed (N) ..... 49
Interregnum in committee work (Ed) 411
Prepares for active work (N) ..... 242
Scope defined (N) ..... 306
Welcome (Ed) ..... 58
Egypt—Irrigation systems to be electrified (N) ..... 54
Electric light and power companies, earnings report ..... 53, 117, 181, 309, 373, 469, 565, 597, 708, 741
Electric Refrigeration Bureau — Continues its work (N) ..... 87
Electrical Assn. of New York—Co-ordinated sales effort (N) ..... 216
Electrical World—historical summary .... 5
Electrochemical developments (Ed) ..... 634
Electrochemical Society — Meeting at Montreal (N) ..... 633
Electrochemistry (Ed) ..... 187
Electrochemical processes increasing. C. G. Fink ..... 361
Electrodes, furnace, temperature losses .... 801
Electrolysis—Protects gas main from electrolysis (N) ..... 217
Widens rare metal use ..... *185
Electrolytic cells, economical service from .. 831

**Employees:**
General Electric employees protected (N) ..... 376
Pensions and new social concept (Ed) 442
Pension plan adopted by Rochester Gas & Electric (N) ..... 184

**Energy:**
Conditions in nine regions in 1932 .. 25
Distribution and generation of energy in 1932—statistics ..... 16
To stop the waste of unused energy (Ed) ..... 91
Engineering—New developments in engineering ..... 671
Engines—Diesel buyers unprotected, salesmen decide (N) ..... 343
Exposing omissions in "saving" contracts for Diesels. Dean Taylor .. 476

## F

Federal Power Commission—Regulation of rates sought (N) ..... 212

**Federal Trade Commission:**
Associated Gas & Electric hearing (N) 403
Cities Service inquiry (N) 530, (N) 562
Federal Trade investigation. B. F. Weadock ..... *757
Insull case heard (N) ..... 178
Insull properties investigation resumed (N) ..... 146
Laclede Gas & Electric Co. inquiry (N) 810
Metropolitan Edison hearing (N) ... 216
A. E. Peirce group in inquiry (N) ... 501
Senate increases funds (N) ..... 275
Utilities Power & Light inquiry (N) 781
United Gas Improvement "avoided" income taxes (N) ..... 370
United Gas Improvement Co. inquiry (N) ..... 307
United Gas Improvement praised at hearing (N) ..... 373

**Finance:**
Analysis of trend in fixed capital replacements. W. J. Lyman (James McGraw first prize paper) ..... *825
Arkansas securities law (N) ..... 536
Associated Gas & Electric pays interest in script (N) ..... 211
Associated Gas & Electric reorganization sought (N) ..... 629
Bonbright survey of utility capital ... 225
Capital expenditures decrease (tables) 43
Cities Service ban raised (N) ..... 376
Commonwealth & Southern subsidiaries retire stocks (N) ..... 85
Detroit Edison defends its accounting methods (N) ..... 2
Laclede stock sale banned by Supreme Court (N) ..... 533
Light and power companies financing in 1932 ..... 28
Maturities and earnings, 1932 ..... 26
North American Light refunding (N) 184
New York Commission orders utility write-downs (N) ..... 435
Public utilities meet bank emergency (N) ..... 305
Roosevelt seeks control of securities (N) ..... 401
Securities bill passes House and Senate (N) ..... 597
Stock market prices (charts) ..... 21
Union Electric Light & Power Co. denied authority to hold certificates of Laclede Power (N) ..... 85
Utilities meet their crisis by readjustment to conditions (tables) ..... 666
Wisconsin dividend ban continues (N) 152

**Fires:**
Beaumont, Tex., fights fires with light (N) ..... 243
Lubricating oil fire damages Burlington station (N) ..... 115
Oil fires in generating stations discussed by Apparatus Committee (N) ..... 115
Flue gas cleaners ..... 608
France—Energy output declines (N) ..... 88
Frequency regulation—Automatic regulation of frequency. R. Brandt ..... *136
New type Diesel governor. I. C. Martin ..... *582

**Fuel:**
Consumption of fuels in 1931 and fuel rates, 1926 and 1931 ..... 545
Energy generated from fuel and water power (chart) ..... 18
Gas and oil to dominate according to prediction (N) ..... 246

**Furnaces—Electric:**
Electric furnace cast iron. H. J. Hall. *796
Electric melting gives superior iron. D. T. Waby ..... *100
Foundries producing electric furnace cast iron (table) ..... 102
Inductive heating of razor blades. E. F. Northrup ..... *252
Radiation tube for recording and controlling high temperatures ..... 144
Fuse clip ..... 144
Fuses—Non-tamperable fuses in Electrical Code (N) ..... 408
Utilities want continuous rating on high voltage fuses (N) ..... 249

## G

**Generating Stations:**
Astoria generating station described. J. E. Goodale ..... *540
Auto-transformers to generate 66 Kv. from 33 Kv. alternators. J. Rosen. *584
Battersea station, England, nears completion (N) ..... *473
British Columbia plant uses electric-steam generator ..... 515
Dunstan Stations has walls of glass (N) ..... *249
Local vs. district generation for quality service in Chicago ..... 75
Mercury unit in New Jersey station (N) ..... 406
Organization and management important in power station economy. C. D. Zimmerman ..... 429
Scheduling units for maximum over-all economy. C. C. Baltzly ..... *284
Steam electric plants—capacity scheduled for completion in 1933 ..... 23
Tacoma plant estimated at $80 per kilowatt ..... *489
Trends in power stations. F. S. Clark 766
Generators—Capacity of generators in public utility plants (table) ..... 22
Modernizing generator connections. F. A. Westbrook ..... *449
Germany—Public utility power ..... 12
Governor Diesel engines ..... 624
Great Britain—Appliance rental completes five-year trial (N) ..... 81
Electrical statistics .... 150, 214, 246, 278, 534, 661, 728
Great Lakes Power Club to continue (N) 244

## H

**Heating—Electric:**
Canada reports results of home heating trials (N) ..... 780
Central Maine Power Company rental-purchase plant for water heaters. G. S. Williams ..... 420
Characteristics of residential installations having water heaters. W. F. Walsh ..... 124
Electric soil sterilization ..... 453
Fusing caustic with electric heat .... 792
Grandstands seats heated electrically in Switzerland (N) ..... 151
Hotbeds speed sprouting and maturing. *554
Induction heating applied to liquids and gases (N) ..... 215
Inductive heating of metals and alloys. E. F. Northrup ..... *252
Limitations on electric steam generation ..... 590
Low-temperature heating fabric in England (N) ..... 152
Molasses heating for feed mills. D. E. Blandy ..... *822
Ontario Hydro-Electric Power installs free water heaters (N) ..... 467
Purdue University reports on electric hotbeds (N) ..... 812
Small heating devices sell (Ed) ..... 315
Small heating unit sales by utilities (N) ..... 246
Hoists, performance of mine ..... 66
"Hold-off" carholder for use near live equipment. F. W. Sulewsky ..... *299
Holding companies—Maturities and earnings, 1932 ..... 26
Public putting blame where it belongs. Samuel Ferguson ..... 95
Hungary—State railway electrification. R. F. Stockar ..... *166

**Hydro-Electric Plants and Developments:**
Abitibi project bought by Hydro Electric of Ontario (N) ..... 440
Beauharnois plant approved (N) ... 599
Capacity added during 1932 ..... 23
Capacity scheduled for completion in 1933 ..... 23
Colorado River project (N) ..... 182
Comerford Station — cost of headgates ..... 195
Cove Creek funds authorized (N) .... 782
Current River Power opposes water power bill (N) ..... 279
Export of power deathblow to St. Lawrence? (Ed) ..... 506
Fifteen Mile Falls plant costs ..... 617
Fifteen Mile Falls station—cost of intake racks ..... 99
Fifteen Mile Falls system's construction costs ..... 298
Flathead project time extended (N) .. 87
Fusenko River, Korea, plant completed (N) ..... 56
Germany has another pumped storage plant (N) ..... 121
Hoover Dam construction starts (N) .. *411
Hoover Dam water won by Arizona (N) ..... 247
Hydro unit adapted for sensitive governing. A. N. Geyer ..... 834
Idaho hydro development (N) ..... 152
Improving operation of small hydro plants. L. M. Robertson ..... *805
McIndoes hydro development's cost data ..... *636
New River case (N) ..... 148
New River case won by Federal Power Commission (N) ..... 436
New River control by Federal Power protested (N) ..... 531
New River Intervention halted (N) .. 593
1932 developments in Canada ..... 326
North Carolina to have hydro commission (N) ..... 504
Ontario Hydro in refinancing project (N) ..... 146
Penstock costs at Fifteen Mile Falls 258
Potomac River project abandoned (N) ..... 182
Quebec legislature lifts power export ban (N) ..... 470
Rock Island project completed (N) ... 248
Swiss project on Aare River (N) .... *83
Tennessee plan indorsed (N) ..... 312
Tennessee project and power economics ..... *604
Tennessee project opposed by utility executives (N) ..... 497
Tennessee Valley development favored by Roosevelt (N) ..... 183
Water power in 1932 (N) ..... 310

## I

Industrial applications sessions at A.I.E.E. convention ..... 160
Industrial plants—$2,770,000,000 market. *40

**Industry:**
Do you believe in this philosophy of government? (Ed) ..... 538
Government as a partner (Ed) ..... 818

Let's quit squabbling (Ed) ..... 187
Liversidge to fight for "council of the electrical industry" (Ed) ..... 411
Loyalty and enthusiasm (Ed) ..... 250
Recovery bill passes (N) ..... 778
Insect traps. M. Luckiesh ..... *718

**Inspection:**
Cutting cost of inspection and maintenance ..... 364
New York Inspectors war on unsafe merchandise (N) ..... 471
Reducing energy diversion. M. T. McKenzie ..... 356
Richmond to inspect appliances for safety. Earl Whitehorne ..... 488
Unapproved appliances to be checked by New York inspectors (N) .... 408

**Insulation:**
Appliance insulation resistance. Gordon Thompson ..... 793
Chromoxide wire has heat resistance. 176
Effect of busbar insulation on heat dissipation. R. J. Coe (charts)... 223
Insulation co-ordination (A.I.E.E. convention) ..... 156
Power system insulation co-ordination. A. E. Silver ..... 257
Pyranol affords far smaller secondary network units. Turner & McLachlan ..... *762
Insulators—Flashover of insulators (Ed). 571
Rig for changing insulators. J. E. Housley ..... *330

**Insull:**
Collateral bid in by New York bank (N) ..... 1
Investigation (N) 52, (N) 83, (N) 178, (N) 211, (N) 242, (N) 273
Rearrested and bailed (N) ..... 146
Interchange—Industrial power purchases—and untouched market. D. W. Taylor ..... 67
Interconnection—Niagara-Hudson and New York Edison tie-line obstacles removed (N) ..... 505
Interverters, rectifiers and low frequency generators (A.I.E.E. convention)... 163
Ireland—Shannon River project in difficulties (N) ..... 274
Italy—Output of energy rises (N)..... 216

## J

Jugoslavia—statistics on electricity (N)... 712

## L

**Law and Legislation:**
Bills in session (N)....276, (N) 244, (N) 308, (N) 371, (N) 465, (N) 536, (N) 568, (N) 600, (N) 632, (N) 660, (N) 713, (N) 785
Bills now in session (N) ..... 212
Bone power bill a law (N) ..... 340
Utility bills before houses (N) ..... 180
Light and power service statistics, 1932.. 13

**Lightning:**
Concrete pole base shattered by lightning. J. E. Housley ..... *137
Detroit modernizes lightning arresters (N) ..... 376
Locate arresters close to protected apparatus. W. J. Rudge, Jr. ..... 170
Neon arrester ..... 528
Protection of distribution transformers. J. M. Flannigen ..... *290
Rehabilitated transmission line defies lightning. F. S. Douglas ..... *820
Studies of lighting (A.I.E.E. convention) ..... 158

**Lights and Lighting:**
Baltimore street lighting reduced (N) 184
Case lighting conference discusses economics (N) ..... *210
Chicago street lighting costs cut (N). 439
Color lighting for the stage. A. L. Powell ..... 648
Contrasts in sodium vapor light. M. Luckiesh ..... 827
Cost of lighting for production. Harrison & Weitz ..... *555
Cost of neglected maintenance. S. G. Hibben ..... *332
Decentralizing lighting sales (Ed).... 571
Demonstration kit discussed at E.E.I. meeting ..... 753
Demonstration kit for service calls and new business ..... *204
Demonstration show window sells lighting in Birmingham, Ala. ..... *620
Floodlighting sold by demonstration.. *66
Gaseous discharge lamps improved in England (N) ..... 744
Gaseous tubes to light World's Fair (N) ..... 345
Hartford broadens policy on free lamp equities (N) ..... 145
Homemaker's attitude on improving the lighting ..... 299
Illumination for Chicago World's Fair (N) ..... 153
Increasing home lighting sales. R. E. Fisher ..... 768
Japanese lamps affected industry little (N) ..... 54
Japanese outbreak over lamp patents (N) ..... 499
Light for merchandising. F. H. Pearson ..... 514
Light for safety and health. W. D. Keefer ..... 427
Light trap for destruction of insects. M. Luckiesh ..... *718
Light traps save fruit (N) ..... 216
Lighting an exposition. W. d'Arcy Ryan ..... *687
Lighting fields to explore—with profit. M. E. Skinner ..... *774
New tubes for gaseous lighting (N). 599
Office building lighting. W. E. Malm. *587
Ontario rules on lamps (N) ..... 344
Outdoor lighting standards used at Century of Progress ..... *684
Paris cinema has novel lighting.... *352
Philadelphia Electric Co. — lamp renewals not mandatory (N) ..... 56
Polar intensity curves can give total flux. E. S. Oberndorf (charts).. 132
Reactor-rectifier circuits serve as flasher and dimmer. C. G. Suits.. *320
Relighting a banking room. R. A. Palmer ..... *297
Removing heat from high intensity lighting ..... *480
Shadowless lighting in surgery ..... *831
Sodium lamps for indoor developed (N) 815
Sodium vapor lamps used on ½ mile of highway (N) ..... 815
Stage lighting technique eliminates window glare ..... *458
Street lamps' economic life ..... 258
Street lighting (Ed) ..... 443
Street lighting controlled by electric eye ..... 142
Street lighting and insurance costs (Ed) ..... 539
To save the pedestrian (Ed) ..... 819
Traffic signal systems could be administered by utilities (Ed) ..... 251
Tubular ceiling lamps in night club. *383
Load—Diversity in home uses more than code uses. W. F. Walsh (tables) 124

**Losses:**
Lowering bus voltages ..... 611
North Illinois Public Service Co. reduce losses by open delta ..... 607
Northern Illinois Public Service Co. reduces losses by transformer selection ..... 638
System losses ..... 103
System losses kept down by constant attention (North Illinois Public Service) ..... 554
Unaccounted-for losses are tomorrow's dividend reservoirs (Ed) ..... 442
Lubrication—Faulty lubrication causes most motor troubles. R. H. Parrish 425

## M

Machinery heavy, moving. G. F. Harden. *430
Machinery produced in 1931 (N)..... 86
Maintenance—Operating and maintenance expenses (tables, charts) ..... *32
Protection of idle machines ..... 804

**Management:**
Executives in the balance (Ed) ..... 155
Fourteen point program for spending to save (Ed) ..... 539
Production for profits. D. R. Stevens 609
Small plant and big plant in manufacture. D. R. Stevens ..... 97
What does the future hold? Alex Dow. *755
Manhole cover used by Detroit Edison Co. ..... *653

**Manufacturing:**
Business and financial status of representative electrical manufacturers (table) ..... 46
Electrical manufacturing (chart).... 241
Factory activity lags ..... 191
Growth of electrical manufacturing in seventeen years ..... 44
Manufacturers record deficits *11, correction ..... 127
